ADVETO expands into Singapore and South East Asia

ADVETO and **Jason Electronics** in Singapore have entered into an agreement giving ADVETO sales and service coverage in and around Singapore. ADVETO is expanding its presence throughout the globe by partnering with well known, reliable companies within the field of Marine Electronics. This is a direct consequence of the rapid growth of ADVETO's ECDIS-4000 users.

“The innovative features of ADVETO’s type approved ECDIS-4000, such as the online ordering and download of ENC over internet will for sure be of interest to the ship operators.” says Mr. Ronald Tan, General Manager of Jason Electronics. “With the growing number of ships using ECDIS it is a perfect complement to our offer to the Shipping Industry.”

“We are proud that Jason Electronics with its long and good reputation in the Marine Electronics market is now our partner in Singapore.” says Magnus Karlsson, Marketing Manager of ADVETO. “To have strong partners like Jason in the important shipping hubs around the globe is of outmost importance to ADVETO.”
